2026 BENCHMARK REPORT

The Goal-Setting Benchmark

15→71%

Goal success climbs with each habit added

Based on 280 ops & strategy leaders across
tech companies of 50-200 employees

OKRs

The Staircase

2.9×

More consistent with 3-4 habits

The Goal-Setting Benchmark

0 habits hit goals 15% of the time

4 habits → 71%, a clean staircase

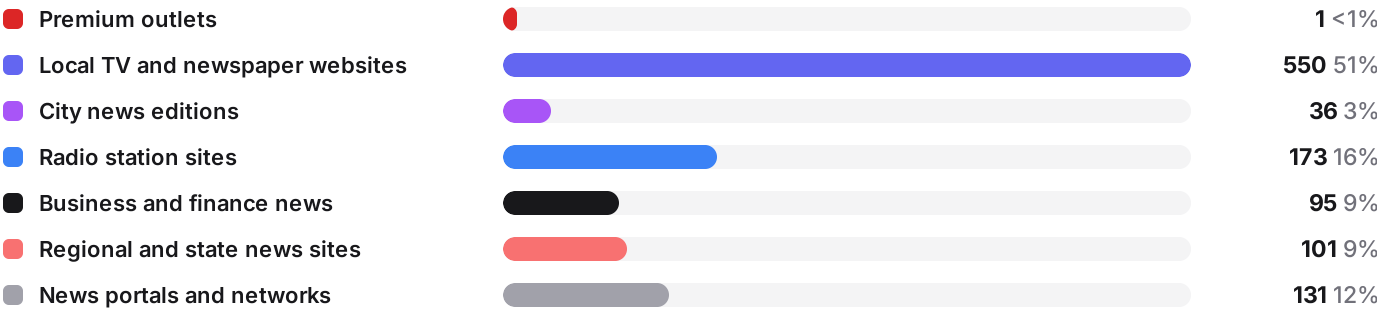

Tracking matters as much as setting

Framework choice barely moves results

//

A benchmark of 280 operations and strategy leaders finds that four execution habits separate teams that hit their goals from teams that miss — and that the goal-setting framework a company picks makes little difference.
